

PRODUCT

PAPER

Product Description

Electrical insulating grade papers for use in oil immersed distribution and power transformers.

Specification

To Customers Requirements.

Typical Application

- Oil Filled Transformers

Heat Class:

105°C

Insulation Options

Kraft
Thermally Upgraded
Controlled Extensible (CE)
Crepe

Build Criteria

Subject to Insulation and covering options.

Covering Options

Butt Lap
Slight Overlap
Half Lap
Intercolated
Multiple Layers
Combinations

Varnish / Resin

Not applicable.

Test Criteria

Mechanical Properties
Electrical Properties
Thermal Properties
Chemical Properties

All tests conducted in accordance with the relevant Australian International Standards or customer specifications.
